

14 February 09

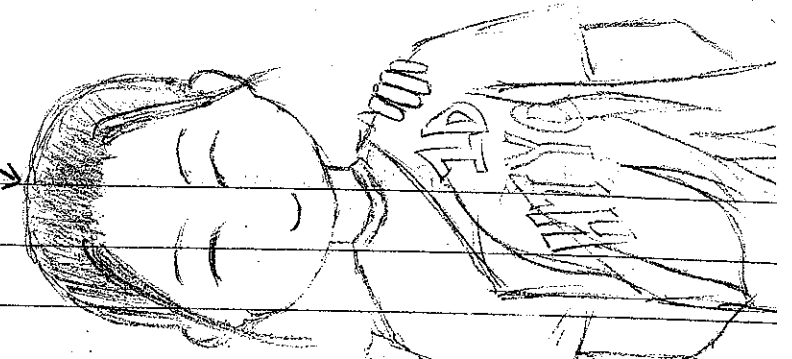

9 February, the first day of the English week and it also is our 1D  
was

big day. It was the day of our parade. The cover playground was decorated. The balloons with different colours made the cover playground more beautiful. The music of the practise were all around the school. We also busy to practise our 1D music until the last minute. We were the fifth group of this parade. When we watched the other classes parade, we were very worried and nerves for our parade. The other classes <sup>also</sup> had excellent performant, but how about us? Can we proform our parade without any mistakes? Can we get the prize from the ju ges' hands? All the questions were rounding in my head, but at this time Jacky, Gigi, Selena and Ashley asked me to put my hand together and said '1D!' It told <sup>that</sup> me, I amnt alone! We had practised a lot. Our practise must not be less than them. 1D is a team, we won't just afraid for

this small thing. Nobody can stop us because we are 1D! Then, the music was started to play. It is the time for us to show off ourselves! We sang as loud as we could and we danced as well as we could. We just wanted to do one thing — 1D best! At the end of the English parade, it was the time for the prize. We got the best performer prize. All the classmate faces were showing the biggest smile just like the angels came from the heaven.

To run back over, in these few days we always practised with each other. In this process we had tears and sweat. It made our friendship stronger and stronger. I will never forget this precious experience forever!
