

Topic : Our 2C Parade — 2C culture : Care & Love

Picture

We have got 'The most cooperative award'

13 Feb 09

My Reflection :

All of my classmates were excited after we have heard the news of our English Week parade performance. Mrs. Bouteiller said that there would be <sup>our</sup> principal and his guests to watch our parade. Certainly, we began our planning as soon as possible. I think this was a good start! Everyone was divided into different groups and <sup>began to</sup> discuss immediately. Unfortunately, I needed to leave Hong Kong during the Chinese New Year Holiday. I felt extremely sorry, angry and sad because I could not work on the music of our class' performance as I am the musicians' leader. Luckily, Michael has arrange the music part for our class, great job!

After the holiday, we began our rehearsal. At the same time, many <sup>serious</sup> problems appeared. Firstly, the performers

did not attend the rehearsal, or even absent! Why they were punctually

such impatient and lazy? They always fought and played some

tricks on the other classmates, I was one of the victims

too! No cooperation, all! They quarrelled about how long at also

shall they practise, actually, they were thinking about went

home to have fun! How selfish they were! They did not

see how the directors put in plenty of effort, but the

directors worked hard under huge pressures! Those students had

bad attitude to this parade although this is our show.

Times went fast, when we began our parade, everybody

were very nervous. The performances went strictly to the

end, something happened. It was Matthew, he said

some vulgar language when the performers went near the words in

judges! Oh! I felt very disappointed on him.

After this parade, I found our class needs more energy, cooperation and self-restraint. If we have care and love, then we should pay our effort. Not just for one's self, it is for ourself. This is the invaluable advice I can give to 2C.
