The dancers of 2C!!!!

Yeung is not alone now~

We got the Most Cooperative Award!

13 February, 2009

My Reflection:

9th February, 2009 has just past. On that day, I believe all of the students of 2C will have a deep memory for what we had done. That's parade!

In the parade, all of the performers were all doing very well. Finally we got the most cooperative award! Congratulation to 2C!!

Remember in the Lunar New Year holiday, I back school for two days. We back to school for practice and thought of the parade's rundown. Before that two days, I was in the camp, I had just slept for three hours! And the day after ^{the} camp, I slept for five hours only. I think I will never forget two people, that's Nicole and Mike! They have a well leadership. They put in plenty of effort and spent lot of time in this parade. Thank's for them. If we don't have them, I don't know will 2C's parade be that good or not. Also, Ms Betty and Mrs Bouteiller gave lots of advices to us. All of these help us to do better in the parade.

I remember that Mike, he always late for the parade. One day, he almost late for two hours. The time that he was not here, we can't practice for a lot of things. It shows that being punctual is such a important things!

QC's cooperation, the management of the parade, the positive attitude are all helping us to do better in the parade. None of them can be left. This parade was a meaningful learning experience for us. We should remember how ^{much} effort we paid in this parade. If no effort was put, we cannot get the most cooperative award!
